

### **Sample Laser Set Up 2 for Wheeled Vehicle**

**Similar to Set Up 1, this was made for a laser pen with the switch in a different location. The hole in the PVC allows the laser pen to be turned off more easily while sliding the pen into the pipe further turns it on.**

**When working with lasers, please follow the Science Olympiad Policy on Lasers at:  
<http://www.soinc.org/lasers>**
