

BOOST YOUR SCHOOL'S STEM POWER WITH AN ELEMENTARY SCIENCE OLYMPIAD WORKSHOP!

Elementary Science Olympiad (ESO) is the perfect complement to any K-6 science program, with almost 40 years of experience with high-quality, standards aligned STEM curriculum. ESO's hands-on, inquiry-based activities help students to build their own understanding of foundational STEM concepts through fun and engaging activities that can be used in the classroom, after school, or as family engagement activities!

Your school can now run its own professional development workshop for less than \$500, complete with materials and curriculum!

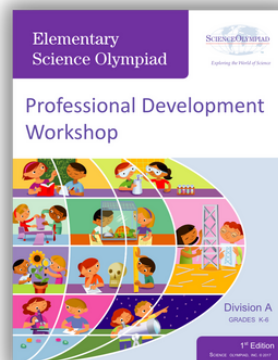

The Elementary Science Olympiad Professional Development Workshop includes:

- Step-by-step instructions for the workshop facilitator (full or half-day training options);
- Ten hands-on activities that are aligned to Next Generation Science Standards (NGSS);
- Materials and equipment (most reusable) for 20 participants; and
- Trainer support from the Science Olympiad National Office (one hour total).

Here's what you need!

**ELEMENTARY SCIENCE OLYMPIAD
IN-A-BOX (PRICE: \$320)***

**PROFESSIONAL DEVELOPMENT
WORKSHOP MANUAL (PRICE: \$31.80)***

“It was fabulous. I've got librarians clamoring to run these events with their students.”
-Dave Beedy, Director of STEM Education, Elmhurst Community School District 205

For purchasing information, visit the Elementary Science Olympiad webpage: <https://www.soinc.org/programs/elementary>. Contact elementary@soinc.org to schedule your one-on-one session with our Director of Elementary Programs.

Want even more professional development and assistance with your STEM program needs? We can help you with resources and training for competitive events, curriculum for students with disabilities and STEM nights!
