

ENTOMOLOGY B

Sample Activities

These are sample questions/tasks/activities that will help prepare students for the 2026 season. This list is not all-inclusive and is representative of what students may be asked on tournament exams.

- a. Identify **scientific name** and/or common name of the provided sample.

- b. What conclusion can be drawn about the habitat(s) of the given specimens?

- c. Which of these specimens does not fit within this **family of insects**?

- d. What unique feature distinguishes the specimen shown in the picture?

- e. Consider the potential impact of human activities on this particular insect and vice versa.

- f. Formulate or construct a **dichotomous key to identify insects**.
