

Workforce Spotlight

HP – Vancouver, Washington

"Science Olympiad helps kids decide what they want to be. My daughter wouldn't have known what her passion is without the program."

Bhavani Shankar

Master Engineering Program Manager at HP and volunteer parent coach

HP also brought an interactive virtual reality and technology display to the 2018 Science Olympiad National Tournament at Colorado State University, demonstrating the latest advancements to more than 2,000 of the country's top STEM students.

The company found the Science Olympiad talent pool so deep, hiring managers have begun recruiting Science Olympiad team members for high school and college internships as well as future full-time employment.

"If what we do has a positive impact on our community and environment, then we have done something right."

Eduardo Macias

HP Senior Director, Supplies Organization/Brand Authentication
