The Science Olympiad Alumni Network is comprised of past participants of the program, stretching back to when the national organization first started registering teams in 1984-1985. Each year nearly 240,000 students join Science Olympiad clubs, adding to the millions with a SciOly background who are entrepreneurs, innovators and leaders in government, industry and academia.

In a recent Alumni Task Force Survey:
- 48% said they are in contact with or mentoring a local Science Olympiad team
- 73% said they are currently volunteering with a local Science Olympiad tournament
- 87% said they intend to continue volunteering with Science Olympiad
- 92% said they want to network with other Science Olympiad alumni

“Write It Do It and Experimental Design help me every day as a scientist. They taught me how to write my methods sections precisely so that others can replicate my findings. Science Olympiad showed me I wanted to be a scientist, and now, I am pursuing that goal in graduate school where I’ve received a National Science Foundation Graduate Research Fellowship.”

**Jordann Brandner**
Kansas State University Graduate Research Assistant

“Recently, past competitors have started to realize that they have more in common than just memories. They are an alumni network, and they are bringing together the enthusiasm they once had for competition in a new role as active Science Olympiad alumni. I have been inspired by the way that so many alumni have created a new arena to provide elite tournament experiences, networking opportunities, and college exposure to a wider population of students.”

**Amanda Baker**
*Scientific American* Budding Scientist writer

“Science Olympiad has taught me to think in engineering design and what it means to be a part of a true team. The way most people feel about sports is how I feel about Science Olympiad. It’s a huge part of who I am.”

**Jessie Vander**
Sylvain Labs, Brand Strategist
For the 2019-2020 tournament year, Science Olympiad is privileged to have sponsors who are true partners in our mission. Each of the corporations, associations and groups listed below have a vested interest in improving the quality of K-12 STEM education.
