

Attend a Break-Out Session

Presented by the U.S Air Force

How **Remote Sensing Technology** is used in the U.S. Air Force within Special Operations.

DETAILS

- **When:** Friday, May 17
- **Time:** 11:00 am - 12:00 pm
- **Room:** Russ 144
- **Speakers:** Staff Sergeant Machado & Staff Sergeant Busch
- **What:** Two war fighting airmen from the United States Air Force will speak about their experience and knowledge on Remote Sensing Technology. They will discuss how the Special Operations branch of the U.S. Air Force uses Remote Sensing to keep America safe and lead the way in innovation for air, space and cyberspace in an increasingly high-tech world.
