

Start a Team

Just like an athletic team, **Science Olympiad clubs are coached by teachers, improved by mentors and filled with top talent.**

Each fall, Science Olympiad releases new rules and teams tackle the 23 STEM-aligned events in pairs, building devices for on-site testing, studying for core knowledge challenges and preparing for rigorous hands-on lab experiments. School teams register annually through their state Science Olympiad chapter at www.soinc.org/join/state-websites

Science Olympiad: The Basics

DIVISION B
(Grades 6-9)

DIVISION C
(Grades 9-12)

4.5K 
Teams in 2021

15 
Members on a Team

375 Invitational, Regional,
State and National
Tournaments

23 Events in
Each Division

50 
State Organizations

Exploring the World of Science

Girls in STEM

"You have all heard the statistics, that women are under-represented in STEM, especially in industries like engineering, with even fewer minority women pursuing STEM careers. But ever since Science Olympiad was founded, **we've been inspiring women to shatter the glass ceiling of STEM**, and to overturn those negative statistics."

Dr. Gerard Putz
Science Olympiad President and Co-Founder

Exploring the World of Science

"I believe Science Olympiad is the **best cross-gender team-based STEM outreach program in the nation**. In practices and competitions, I see young girls develop courage and independence, realizing the power they have to solve problems and support their team equal to or better than their peers."

Enrica Quartini
National Event Supervisor
University of Texas Institute for Geophysics Researcher

Girls in STEM: By the Numbers

While women represent only 1 of every 4 STEM jobs, girls represent

50%

of Science Olympiad participants

On average

40%

of Science Olympiad National Tournament medalists are girls

WOMEN HOLD MORE THAN HALF of Science Olympiad's staff, board, advisory committee, state director and rules committee leadership positions

2022 Events

Science Olympiad events touch every letter in STEM and align with Next Generation Science Standards, allowing teachers to extend their science curriculum with engaged learners in an after-school setting.

2022 DIVISION B GRADES 6-9

Life, Personal & Social Science

Anatomy and Physiology
Bio Process Lab
Disease Detectives
Green Generation
Ornithology

Earth & Space Science

Dynamic Planet
Meteorology
Road Scholar
Rocks and Minerals
Solar System

Physical Science & Chemistry

Crave The Wave
Crime Busters
Food Science
Sounds of Music
Storm the Castle

Technology & Engineering

Bridge
Electric Wright Stuff
Mission Possible
Mousetrap Vehicle

Inquiry & Nature of Science

Codebusters
Experimental Design
Ping-Pong Parachute
Write It Do It

2022 DIVISION C GRADES 9-12

Life, Personal & Social Science

Anatomy and Physiology
Cell Biology
Disease Detectives
Green Generation
Ornithology

Earth & Space Science

Astronomy
Dynamic Planet
Remote Sensing
Rocks and Minerals

Physical Science & Chemistry

Chem Lab
Environmental Chemistry
Forensics
It's About Time
Trajectory
Wifi Lab

Technology & Engineering

Bridge
Detector Building
Gravity Vehicle
Wright Stuff

Inquiry & Nature of Science

Codebusters
Experimental Design
Ping-Pong Parachute
Write It Do It

"I have been in public health for more than 40 years. Being involved with the Science Olympiad Disease Detectives event since its beginning is one of the high points of my career as I knew it would make a difference in lives."

Dr. Ralph Cordell
Epidemiologist, Georgia

"Protein Modeling made me fall in love with the structure-function relationship of proteins. I now study biochemistry because of this."

Maiya Yu
University of Michigan Student

Exploring the World of Science

Alumni

"Recently, past competitors have started to realize that they have more in common than just memories. They are an alumni network, and they are bringing together the enthusiasm they once had for competition in a new role as active Science Olympiad alumni. I have been inspired by the way that so many alumni have created a new arena to provide elite tournament experiences, networking opportunities, and college exposure to a wider population of students."

Amanda Baker

Scientific American Budding Scientist writer

"Science Olympiad has taught me to think in engineering design and what it means to be a part of a true team. The way most people feel about sports is how I feel about Science Olympiad. It's a huge part of who I am."

Jessie Vander

Sylvain Labs, Brand Strategist

Exploring the World of Science

The Science Olympiad Alumni Network is comprised of past participants of the program, stretching back to when the national organization first started registering teams in 1984-1985. **Each year nearly 240,000 students join Science Olympiad clubs,** adding to the millions with a SciOly background who are entrepreneurs, innovators and leaders in government, industry and academia.

In a recent Alumni Task Force Survey:

48% said they are in contact with or mentoring a local Science Olympiad team

73% said they are currently volunteering with a local Science Olympiad tournament

87% said they intend to continue volunteering with Science Olympiad

92% said they want to network with other Science Olympiad alumni

"Write It Do It and Experimental Design help me every day as a scientist. They taught me how to write my methods sections precisely so that others can replicate my findings. Science Olympiad showed me I wanted to be a scientist, and now, I am pursuing that goal in graduate school where I've received a National Science Foundation Graduate Research Fellowship."

Jordann Brandner

Kansas State University Graduate Research Assistant

Elementary

Science Olympiad's Division A (Grades K-6) allows students, teachers and families an opportunity to explore the world of STEM in classroom, club, community or competitive settings. Signature Science Olympiad events like **Mystery Powders, Gummi Bear Long Jump, Straw Towers, Metric Mastery and Don't Bug Me** bring core science concepts to life using everyday materials. Designed to be inclusive, welcoming and accessible to novice learners and educators, the Common Core and Next Generation Science Standards-aligned Elementary Science Olympiad curriculum will fit the needs of any school, after-school program or library.

Elementary
SCIENCEOLYMPIAD

1800
There are competitive Division A Science Olympiad teams in 12 states

The average per-student cost for materials and supplies of an Elementary Science Olympiad community event is
LESS THAN TWO DOLLARS

10K+
There are elementary schools hosting PTA, community or school-organized Fun Day, Fun Night or Competitive Tournaments in the US
